PRODUCT CATALOG

About Us

The PATONA® brand has established itself in the electronics market. Innovation, production and sales are steered centrally. Our strategic orientation is clearly defined: Market leader – together with you!

Our claim;

- First Mover Advantage – new batteries are primarily available at PATONA®
- Target group-oriented quality series
- Best availability, fast response times
- Attractive design, brand development
- Worldwide distribution network, efficient distribution
- Innovative product development
- Absolute fairness, sincere partnership
- Superior know-how, first-class service

Nº1

We are the
number ONE
in Europe!

Why Choose Us?

Everything from a single provider

PRODUCTION

From development to production. We control the entire process.

IMPORT

The import and export is carried out by courier, air and sea freight performed by ourselves.

DISTRIBUTION

Subcontracting, delivery and distribution. Nobody is faster than us!

SALES

Wholesale and distribution. We know what we do and we are the number one.

Product Series

Through individual series, we meet targeted groups product portfolio for a wide variety of demands.

Standard Series

The standard series replaces hundreds of original products in reliable PATONA quality. It offers a top price-performance ratio.

Target group:
Casual everyday use.

Premium Series

For permanent and flexible use with high performance and long service life.

Target group:
Demanding users in semi-professional to professional use.

Platinum Series

The best in cells and performance. The highest quality series from PATONA. Extremely high power, service life and maximum performance.

Target group:
Demanding users in semi-professional to professional use.

Protect Series

Advanced professionalization with V1 enclosure and NTC resistor (depending on model) building on the Platinum series.

Target group:
For forward-thinking, technology-savvy users. For semi-professional to professional use – even in extreme situations.

Camera Batteries and Chargers

PATONA batteries have proven themselves over the years in the photographic and film industry and have become the best-selling digital camera battery brand in Europe.

Our batteries contain **A-class battery** cells and an integrated circuit (**battery IC**) to protect you from many problems such as high/low voltage current during charging.

Together with our battery chargers, **PATONA** provides you with the power you need above industry standards.

PATONA Platinum Digicam Batteries

General Specs:

- High battery capacity
- IC battery protection for high/low voltage
- High quality Li-ion battery cells
- Charging Indicator lights
- USB Type-C charging port *
- USB-C charging cable *

* Depending on the model

Broadcast & Cinema

Move beyond limitations and embrace continuous creativity with PATONA's Broadcast & Cinema power solutions. We understand the rigorous demands of professional film and broadcast environments, where every second counts and reliable power is non-negotiable.

That's why we've engineered a range of V-Mount and Gold-Mount batteries, alongside our robust 450W multiport charger, to deliver unwavering performance you can trust.

PATONA's Broadcast & Cinema line utilizes premium battery cells and advanced technology, ensuring consistent power delivery for your high-end cameras, monitors, lights, and other essential equipment. Experience extended shooting times, rapid charging capabilities, and the peace of mind that comes with knowing your vision will never be interrupted by power limitations.

V-Mount/Gold Mount Batteries

General Specs:

- Shockproofed housing
- Display screen *
