

Actus Digital Showcases Award-Winning Actus X Intelligent Monitoring Platform at CABSAT 2025

Empowering broadcasters, governments, media and news agencies with a unified platform for compliance logging, quality assurance, multiviewer monitoring, fast content repurposing, and advanced AI-driven content monitoring - all in one solution

BOSTON, MA – 7 May 2025 – Actus Digital, a global leader in intelligent compliance logging, quality assurance monitoring, and AI-driven media insight, is set to exhibit at CABSAT 2025 in Dubai, highlighting the latest enhancements to its platform. Building on the success of NAB Show 2025, where Actus X won TVTechnology magazine’s “Best of Show Award”, Actus will present its intelligent monitoring platform and advanced AI features for automated content analysis based on both spoken and visual elements within video and audio streams.

At the heart of Actus Digital’s CABSAT exhibition is its all-in-one Intelligent Monitoring platform, delivering both technical monitoring and AI-powered content analysis. From compliance logging, quality assurance, multiviewers, and OTT stream monitoring to advanced AI-driven media insight, the platform addresses the full spectrum of broadcast and content monitoring needs.

The platform includes:

- [QA Compliance Logger](#) for regulatory and technical quality monitoring
- [Actus MV](#) - an interactive multiviewer with real-time layout control and metadata overlays
- [Clip Factory Pro](#) for rapid content repurposing across VOD, OTT, and social media
- [OTT StreamWatch](#) for comprehensive OTT and FAST channel monitoring
- [Actus RVM](#) for remote post-STB monitoring

Built on the same platform, offered as an on-premises or a service, [Actus AI Media Insight](#) adds powerful AI-based capabilities, including multilingual transcription and translation, smart summarization, face recognition, ad detection, and real-time keyword and key topic detection. It enables rapid situational awareness for media regulators, government, and news organizations monitoring political, security, or global developments.

“Our platform is built to meet the evolving needs of our global customers,” said Sima Levy, President of Actus Digital. “CABSAT is a key opportunity to connect with customers in the region, showcase the latest innovations in Actus X, including AI-driven content analysis and automated clip creation, and demonstrate how we’re enabling more efficient, end-to-end workflows. Today’s customers are looking for a one-stop shop that is not only robust and feature-rich, but also AI-ready and future-proof.”

Visit Actus Digital at booth S1-E25 at CABSAT 2025, May 13–15, to discover how Actus X delivers smarter monitoring, deeper insights, and greater workflow efficiency.

Following the recent [announcement](#), visit LiveU at booth S1-G22 to discover how the LiveU IP-video EcoSystem adds efficiency and shortens production workflows.
